

LRID – Academic / MBA–DBA Report

Participant: Robert K.

Date: 2025-12-20

Version: LRID v1.0

Learning Summary

Profile statement: A high-functioning decision-maker balancing strategic clarity with situational adaptability.

Main trade-offs: Speed and autonomy versus collective correction and deliberation.

Scores & Interpretation

Dimension	Score	Band	Interpretation
-----------	-------	------	----------------

Framework Interpretation

This profile aligns with bounded rationality, decision hygiene, and authority bias mitigation frameworks.

Consistency & Bias Awareness

Consistency checks indicate stable decision logic with situational variability under authority pressure.

- CC3 – Speed versus deliberation balance
- CC6 – Consistency under authority pressure

Reflective Prompts

1. Which decision criteria remain stable under extreme pressure?

2. Where do personal judgment and formal governance diverge?
3. How do power dynamics shape your openness to correction?

Methodological Note

What this measures: Decision integrity, ethical boundary management, manipulation awareness, attention control, power handling, and correction readiness.

What this does not measure: Personality traits, intelligence, emotional disorders, or mental health conditions.

Limitations: Results depend on contextual pressure, self-report accuracy, and situational variables at the time of assessment.

Results should be interpreted by qualified professionals within an organizational or educational context.
