

# LRID – Academic / MBA–DBA Report

Participant: Sample Leader

Date: 2025-01-15

Version: LRID v1.0

## Learning Summary

**Profile statement:** A delivery-oriented leader balancing speed with governance.

**Main trade-offs:** Efficiency vs ethical boundary maintenance.

## Scores & Interpretation

Dimension	Score	Band	Interpretation

## Framework Interpretation

This profile aligns with bounded rationality and authority bias frameworks.

## Consistency & Bias Awareness

Several consistency checks suggest pressure-driven variability.

- CC2 – Speed vs accuracy tension
- CC5 – Consistency under pressure

## Reflective Prompts

1. Which pressures most often trigger exceptions?
2. How do you react when authority is challenged?

## **Methodological Note**

**What this measures:** Decision integrity, ethical drift resistance, power handling, attention control, and manipulation awareness.

**What this does not measure:** Personality traits, intelligence, or mental health.

**Limitations:** Results depend on response honesty and contextual pressure at the time of assessment.

Results should be interpreted by qualified professionals only.
